

# GISBORNE COUNCIL OFFICES

Cam Crawford and Jody Hunt, Directors of Chillex Services, traveled down to Gisborne last week to inspect the beautiful new Council Buildings that have been constructed. Chillex Services were involved with the mechanical services for the Council premises.

One of the hottest days of the year in Gisborne (29c) the clients were beaming that their building was cooled to perfection and all their staff could not be happier with their new premises.

Well done to the Chillex Team for keeping our clients cool and happy.
